ABOUT

MADE TO MEASURE, BUILT TO LAST

I'm Alessandro Pisanzio, a carpenter with more than ten years of experience. I grew up in my uncle's workshop in Italy, where I learned to turn raw wood into pieces made to last.

Today I design and build custom furniture and interiors in my own workshop in Ibiza, for restaurants, beach clubs, events and private homes. Iroko and oak are the woods I work with most.

For larger projects I work alongside a design studio and a network of trusted tradespeople, so a single contact takes the job from the first drawing to the final installation.

WHAT I DO

- Design & technical drawings
- Custom furniture
- Restaurant & shop fit-outs
- Event bars & brand stands
- Outdoor structures
- On-site installation & restoration

FEATURED PROJECT · HOSPITALITY

PANINI BAR, COMPLETE RENOVATION

An empty unit turned into a finished venue: counter, wall panelling, shelving, back-bar display, doors and the shop front, all designed, built in the workshop and installed on site.

SOLID WOOD

FEATURED PROJECT · HOSPITALITY

FROM EMPTY SHELL TO OPENING DAY

Every element was made to measure for the space. The same team followed the job from demolition to the last coat of paint.

HOSPITALITY

RESTAURANT RENOVATION

Tables, wall cladding, shutters, planters and bar front for two restaurants of the same group, each with its own character.

SOLID WOOD

HOSPITALITY

BEACH CLUB DINING & LOUNGE TABLES

Round dining tables, lounge tables and low sunbed tables for outdoor use, built in solid hardwood and finished to stand sun, salt and daily service.

SOLID WOOD

EVENTS

MOBILE EVENT BAR

Bar counter and back shelf for a private launch event. Light, modular and quick to assemble on location.

SOLID WOOD

EVENTS · BRANDS

BRANDED BAR WITH CANOPY

Slatted bar with rounded corners, back-lit logo panel and fabric canopy, built for a beach club brand activation.
